📍 Pallath House , Chelakkad (P.O) , Perinthalmanna , Malappuram , 679323

## CAREER OBJECTIVE

---

My objective is simply to be the best full stack developer that I can be and to contribute to the technology industry all that I know and can do. I am dedicated to perfecting my craft by learning from more seasoned developers, remaining humble, and continuously making strides to learn all that I can about development. Highly motivated and enthusiastic fresher with a keen interest in the IT field, seeking to leverage academic knowledge and practical skills gained through internships or projects. Eager to contribute to a dynamic team environment, learn new technologies, and develop innovative solutions that drive business success. Committed to continuous learning and professional growth while delivering exceptional results.

## PROJECTS

---

### SMART PARKING SYSTEM

The Smart Parking System project aims to alleviate the challenges of finding parking spaces in crowded urban areas by leveraging sensors and mobile apps. This system offers an innovative solution to optimize parking spot utilization, reduce congestion, and enhance the overall urban mobility experience. The Smart Parking System project offers an intelligent and user-centric solution to the challenges of urban parking. By combining sensor technology with a mobile app, this system optimizes parking spot utilization, reduces congestion, and enhances the overall urban mobility experience for both drivers and parking lot operators. The project aims to demonstrate the feasibility and benefits of implementing such a system in crowded urban areas, contributing to improved urban planning and Sustainable Transportation Solutions.
